THE LOVES OF MISTER M'CAULEY, (NOT OF THE ANGELS.)

This wooing is nothing but folly.

It leads poor fellows astray,
I'm at the heart of Miss Molly,
A gay dashing belle of Mount Holly,
Be off the creek, Mister M'Cauley,
Your time you are fooling away.

I sank into deep melancholy,
Till hope lent a glimmering ray,
I address'd Miss Letitia Schooley—
Dear madam, my passion is holy;
Be off the creek, Mister M'Cauley,
Your time you are fooling away.

Then I step towards Mistress Duvaly,
A widow, fat, buxome and gay;
Lord madam, your person is jolly,
My affections are plac'd on you solely;
Be off the creek, Mister M'Cauley,
Your time you are fooling away.

Rejected thus, by the sex wholly,
I intend to live single and gay;
Since loving is all a roley polley,
I will no more attempt it by jolly—
Thank you, Ladies, for Mister M'Cauley,
His time no more fooling away.

THE CRACKER.

THE SET OF DIAMOND.

Mr. E., a physician well known for
his skill in mental disorders, saw arrive
at his gate one morning, a lady who
seemed forty years old, although still
young and fresh. Madame la Comtesse
d—, was admitted within the gate of
the celebrated physician. The countess
introduced herself on the spot, and spoke
as a mother in desolation and despair, in
the following terms:

"Sir, you see a woman a prey to the
most violent chagrin. I have a son, he
is very dear to me as well as to my hus-
band; he is our only son."

"Tears like rain fell from her face, and
she shed over the tomb of Maudslous."

"Ah, yes!—Y—es, sir! and for some
time we have suffered the most horrible
fears. He is now at the age when the
passions develop. Although we gratify
all his wishes, money, liberty, &c., he
evinces many signs of demerit. The
most remarkable is, that he is always
talking about jewelry or of diamonds,
which he has sold or given to some wo-
man, all unintelligible. We suppose that
he has become enamored of a woman, no
better, perhaps, than she should be, and
that he has involved himself in burthen-
some engagements to satisfy his desires.
This, sir, is but a conjecture. The father
and I are lost in sounding the cause of
his folly."

"Well, madam, bring your son here."
"Ah, to-morrow, sir—by all means, at
noon."

"That will do."

The doctor respectfully conducted the
lady to her carriage, not forgetting to
scan the coat of arms and the laces.

The next morning the Countess drove
to a famous Jeweller, and after having a
long time chattered a set of 30,000
crowns, she finally purchased it. She
negligently drew a purse from her retic-
ule, found there ten thousand francs in
bank notes, and spread them out; she said
to the Jeweller, "You had better send a
person with me. My husband will pay
him. I find I have not the entire sum."

The Jeweller made a sign to a young
man, who proudly delighted to go in such
an equipage, started off with the Count-
ess M—. She drove to the Doctor's door,
and whispered to him, "This is my son,
I leave him with you." To the young
man she said,—"My husband is in his
study, walk in; he will pay you."

The young man went in. The Countess
and the carriage went off, at first slow,
and unobtrusive; soon after the horses gal-
loped.

"Ah, well, young man," said the phy-
sician, you understand the business, I
suppose. Let us see; how do you feel?
What is going on in this young head?"

"What passes in my head, sir? Noth-
ing except settling for the set of dia-
monds."

"We understand all that," said the

doctor, gently pushing aside the bill: "I
know, I know."

"If the gentleman knows the amount,
no more remains but to pay the cash."
"Indeed! indeed! Be calm—where
did you get your diamonds? what has be-
come of them? Say as much as you will;
I will listen patiently."

"The business is to pay me, sir, forty
thousand crowns."

"Wherefore?"

"How, wherefore?" said the young
man, whose eyes began to glisten."

"Yes, why should I pay you?"

"Because, Madame, the countess, has
just purchased the diamonds at our
house."

"Good! here we have you. Who is
the Countess?"

"Your wife," and he presented the bill.

"But do you know, young man, that I
have the honor to be a physician and a
widower?"

Here the young man became trans-
ported, and the doctor called his domes-
tics, and bade them seize him by the
hands and feet, which raised his trans-
port to fury. He cried "thief! murder!"
but at the end of a quarter of an hour he
calmed down, explained every thing so-
berly, and terrible light began to dawn
upon the doctor.

Notwithstanding all the search that
could be made this singular theft, so wit-
ty, so original from the scene of the phy-
sician and the young man, was never
discovered. The ingrate had taken care
to conceal every trace of himself. The
driver and lackeys were all accomplices.
The carriage was hired, and this history
remains a monument in the memoir of
jewellers.

THE CUP OF POISON.

WEWIL, unfortunate as he was in his
jokes, was no less so in his more serious
attempts; his whole career was one
grand mistake—cloping with a sweet
young lady who was reported to be a
fortune, he discovered, too late to retract,
that she was the dowdier daughter of
an extravagant insolvent. To add to his
disappointment, Mrs. Weevil proved an
incorrigible shrew, whose very eloquent
tongue annoyed him unceasingly.

Proud, however, of his boasted tact
and abilities, Weevil resolved to tame
her, and after pondering some months
upon the subject, resolved to put in form
the following novel and extraordinary
experiment:

Having purchased some white arsenic,
upon the paper of which was duly printed
'arsenic—poison,' he consigned the
deleterious mineral to the flames, and
replenished the envelope with white su-
gar. Watching his opportunity when
Mrs. Weevil was in her tantrums, he
calmly proceeded to the closet, and pour-
ing out a cup of milk, mixed up the sweet
poison.

"Jane," cried he in a melancholy tone,
stirring the potion with the forefinger of
his right hand,—"Jane, listen to me for
a few short moments—I shall not be a
burden to you."

His look and impressive manner si-
lenced the storm. Gnawing the draught
at one gulp, he cast the cup into the grate
and threw the paper upon the ground.

"What have you done?" shrieked Mrs.
Weevil, snatching up the paper, and turn-
ing pale as Parian marble.

"Poison," muttered Jesse, with the most
thrilling tragedy look he could assume;
and clapping his hand to his face, he
buried his head in the cushion of the sofa.

A shriek, followed by an awful silence,
ensued—Jesse ventured to peep between
his two fingers, expecting to see his wife
extended on the hearth rug in a swoon,
but she had vanished.

"Where the dickens has she gone?" cried
he, rising. "Jane"—no answer. He
rested upon his elbow and listened. A
trampling of many feet upon the stairs
aroused him from his posture; and the
next moment his better half rushed wildly
into the room, followed by three men
and the servant maid.

"My dear Mr. Weevil," said the fore-
most gentleman in black, in whom Jesse
recognised a neighboring apothecary,
"what could have compelled you to this
rash act?"

Weevil was really alarmed by the
crowd which he had so unexpectedly
brought about his ears.

"What act?" demanded Weevil.

"You have swallowed poison!"

"Nonsense—nonsense!"—said Weevil.

"Where is the cup, madam?"

"He has thrown it away," replied Mrs.
Weevil, sobbing aloud; but here is the
horrible paper."

The apothecary looked at the paper,
shook his head, shrugged his shoulders,
and then looked significantly at his as-
sistants, who immediately laid violent
hands upon the disconcerted Weevil, &c.,
threw him at length upon the sofa.

"What the devil are you about?" de-
manded Jesse, glaring wildly upon the
medical operator, as he drew a stomach
pump from his coat pocket.

"You must submit, sir," said he, "resis-
tance will avail you nothing."

"Pooh! pooh! nonsense—pon my soul

'twas only a joke!—a mere ruse—don't
be a fool," cried Jesse, struggling. "May
I die if—"

The forcible introduction of the admi-
rable machine, put an end to further op-
position. Weevil kicked and plunged in
vain. The whole operation was admirably
performed; and feeble, spiritless, and
exhausted, the unfortunate patient was
left extended on the couch. The apoth-
ecary promised to send a composing
draught immediately, and left him in the
meanwhile to the tender care of his wife,
who alternately wept and scolded; wind-
ing up her hysterical harangue with a
better remark upon his cruelty in wish-
ing to leave her unprotected for!

"How, wherefore?" said the young
man, whose eyes began to glisten."

"Yes, why should I pay you?"

"Because, Madame, the countess, has
just purchased the diamonds at our
house."

"Good! here we have you. Who is

RUSSIA BEFORE THE WORLD.—A me-
chanic in Russia has succeeded in mak-
ing a steam man. It is probably, one
of the most interesting ever offered to
the world. It is a large colossal statue,
the feet of which are placed upon wheels
on a rail road; and as he goes thunder-
ing over the course, the steam comes puff-
ing out of his nostrils in a manner to
give the appearance of Satan.

It is a gratuitous assumption and an
injurious one to our city in the Boston
Gazette to assert, that the experiment of
wooden pavements in New York is a
failure.—N. Y. Star.

FATAL.—The Monroe (Mich.) Times
mentions as among the disadvantages
effects of the drought this season, that a
farmer in one of the neighboring towns,
a few days since found 17 of his hogs
snuggly picked away in a well which
was located in their pasture—dead of
course. Several such instances have
occurred, in that region, where swine,
after the drought had exhausted the us-
ual supply of water, had plunged into
wells which had been carelessly left un-
covered, and perished.

ALL IN ALL.—In the west there is a
man who is a chaste writer—an elo-
quent preacher—an honest pedlar—a
first rate fiddler, and above all a good
man. He had better visit old Connecti-
cut and reform the people there, and
then come this way.

One of the Siamese Twins, Mr. Chang,
has been arrested for assault and battery
in Boston. His associate brother, Eng,
refuses to be arrested with him, and
threatens a suit for false imprisonment.
This is a puzzling case for the lawyers.

Kentucky Gazette.

From the Albany Argus.
THE FAMOUS FABRICATION.

We have by the Great Western, and through other channels, the facts in relation to the arrest of Webb, at Bristol. The note was for \$2,760. It matured on the 7th of June, two weeks after Mr. Van Buren's departure from the country. Of the existence of the note Mr. V. B. was altogether ignorant. It was sent out by the first packet after maturity, by a merchant of the city of New York, an active political friend of Webb, and addressed to his agent in London, with instructions to proceed to its collection, but to do so with all delicacy and in treat Webb as a gentleman of honor!! So regarding that individual, the London agent addressed him a private note, advising him of the demand sent to his hands, and expressing his readiness to place the matter upon the most favorable footing. For the rest, the London agent will speak for himself.

61, CHURCHSIDE, LONDON,
July 19th 1838.

"Sir—I received yours, of the 9th ultimo, but have received no further instructions than those contained in your letter.

Upon its receipt, I immediately proceeded to find out Mr. Webb, and was informed by Mr. Jordon that he was resident at Fenton's Hotel in St. James' street. On enquiry there I learned that he had left there some days previously, and had gone to Liverpool, but that he intended being in London and remaining there for about a fortnight previous to his leaving the country. I called on Monday last at his hotel, and learned there that they did not know where to forward letters to him, and I have but just learned that he intended leaving this per the Great Western steam ship, which sails on Saturday next, and I therefore conclude that he has some reason for misleading the hotel keeper. I shall by to night's mail send down a confidential clerk to apply to him for payment, and in the event of his not getting cash or security, to hold him to bail, as his conduct and silence in regard to my letter, induce me to believe that he is in difficulties or apprehensive of arrest.

I remain yours truly,

H. LLOYD.

—, Esq., New York."

Of these proceedings Mr. Van Buren was in no respect cognizant; and his only connection with the affair was, when called upon by the agent in London, to testify to the signature of Judge Lansing, of this city, before whom the affidavit in relation to the note had been taken.

It is from this circumstance alone, and with a perfect knowledge that Mr. Van Buren participated in no respect in the affair of the collection of the note or the arrest, that the politron of the Courier and Enquirer has deliberately planned and carried out an attack upon that gentleman, unparalleled for wantonness and falsehood. That Webb and Weed should resort to a mutual scheme to defame an absent American citizen, at any violation of truth and decency, will surprise no one to whom their general profligacy of character is known. But that the Daily Advertiser of this city, in the absence of Mr. Van Buren should volunteer a repetition and endorsement of the statement, with a full knowledge of the denial of the allegations by the friends of the gentleman, but without an allusion to it, will at least surprise such as had expected, under impressions derived from its general course, other things at its hands.

With regard to the legality of the demand upon Webb, we know nothing. It is sufficient for our purpose, and for all the interest we take in the matter, to show that Mr. Van Buren has been in no respect a party to the affair, and that the statements under the responsible signature of Webb, and repeated by the Evening Journal and Daily Advertiser, are wanton and deliberate calumnies. But if the demand be illegal—if the note was obtained under false pretences—and if the holder in March last agreed that it never should be presented for payment if I [Webb] would abstain from making known the circumstances under which it was obtained, and not go before the Grand Jury to ask an indictment for swindling—if all these allegations be true, it is then a matter to be settled between Webb and his personal and political friend, Mr. D. K. Minor, late of the N. Y. American, by whom the note was obtained, and by whom it was transferred, as valid paper to other hands. We will barely remark, however, that the note has been in the hands of the present holder since July, 1837, and that no occurrence, as is falsely said to have taken place in March last, had an existence, in any manner or form, so far as he is in the question.

No Party Man.—The celebrated Dean Swift, in a passage in one of his essays, thus felicitously hits the true character of a "no party man":

"A MAN OF NO PARTY.—Whoever gives himself this character, you may depend upon it, is of no party; but it is such a party as he is ashamed to own. For, even when he says he is of no party, you may observe from the whole drift of his discourse that he is plainly prejudiced in favor of one party, and that, too always the worst. And the true reason of his not declaring is, that he thinks the party not yet strong enough to protect him. The justice of the cause or the goodness of the intention seems to be wholly out of this gentleman's scheme.

The only distinction he goes by is to be politically, of no party, that he may be occasionally of either. Others there are, who are really of a party, and don't know it; they carry on designs, which are kept secret from them; and those indeed are such insignificant tools of a party that they may properly enough be said to be of no party; they are machines purely passive, and, without any will of their own obey the impulse of the wheel that moves them. But you shall never hear a man of true principles say he is a man of no party; he declares he is of a party, if resolutely to stand by and defend the Constitution must be called being of a party. But the other party, it seems, must be divided into two sorts; those who are of a party, and those who are of no party at all. With the gentlemen who apply this latter expression to themselves, I would beg leave to reason thus: either they are of a party, or they are not; if they are, they prevaricate grossly (not to use a more unmanly expression) while they give out the contrary; if they are not, they ought to be ashamed of such an infamous neutrality, and of deserting that cause which they are bound in honor and conscience to defend."

Popularity of the Sub-Treasury.—The Opposition press in this section of the Union, are laboring hard to propagate the false opinion that Mr. Van Buren has acted most unwisely in staking the reputation of his Administration, and of his re-election, upon the very unpopular measure of the Sub-Treasury; while their very efforts to prove it gives the falsehood to the assertion. If it were true that this constitutional Treasury recommendation is unpopular, and had rendered him so, it would require no labored efforts at their hands to convince us of it. The best evidence would be the insignificance to which that unpopularity would consign both him and his recommendation. It requires no effort, and calls for none on the part of the Republicans, to prove that Henry Clay and Daniel Webster, and the darling object of their heart, or their pocket, the establishment of a National Bank, are unpopular here, because the want of notice is the best evidence of the fact. The truth is the great popularity of the recommendation of the President to establish the connection between Bank and State, in the South and Southwestern States, and its daily growing strength here, is a sore in the eyes of the Bank Whigs, and hence their indefatigable labor to defame it, and to misrepresent the motives of the mover before the people. All will not do it.—*Delaware Gazette.*

MORMON TROUBLES AGAIN.

In our last we gave some account of the rise, progress, and termination of the Mormon troubles, and expressed the hope that we should hear no more of it; but on Tuesday we were informed by a passenger from on board the Kansas, who called at our office, that the boat on her passage down, stopped at De Witt, a Mormon Town, in Carroll county, and while there, he was informed that from the threats and menaces of some of the citizens of the county the Mormons had come to the determination to defend their possessions if attacked. The people in the county, as our informant understood had determined that the Mormons should not remain there, and had threatened to drive them out of the country; and the Mormons were equally resolute in their determination to defend themselves against any attempt of the kind.—It was the opinion of our informant from the indications alluded to, that before this, the warfare had commenced; what its issue may be if once it comes to blows we cannot undertake to predict, had enough however we fear; several other gentlemen from the same boat, informed us that a force of about 200 men had been collected together under the command of Maj. —back of the Town of De Witt and had given the Mormons until Tuesday last to leave the place; threatening at the same time, that in the event of the refusal or neglect to do so, they would be driven out victoriously. The Mormons in the town mustered a force of about 76 men.

P. S. After the above was penned we were informed that the first gentleman alluded to above, was a Mormon and brother to Joe Smith.

The more we hear of the Mormon difficulties the more we are confirmed in the belief, that from first to last, the citizens have been more in fault than the Mormons.

MORMONS.—Rumor is very busy in spreading tales about the Mormons, and the measures that have been taken against them. Much pains have been taken to get up an excitement against these miserable ignorant fanatics. Much has been said against them by way of prejudicing the public against them, but no acts have been charged sufficient to justify the state of feeling that appears to prevail against them in some of the upper counties. That some of them have spoken foolishly and acted indiscreetly and absurdly is probable, but as a body they appear to have been peaceable and inoffensive.

So far as we can gather from the most authentic statements they have generally acted on the defensive and are in much more danger of being unlawfully attacked than of attacking others. It appears to be a religious persecution that is gotten up against them much like that which has sometimes excited crusades against infidels and heretics. This system of persecution is the very means to give perpetuity and notoriety to these ignor-

ant fanatics and impostors. It gives to them the opportunity to cry persecution, to obtain public sympathy, and pass off as martyrs. It imparts to them importance and keeps alive their sect, which if let alone would soon fall to pieces. The violence committed on their persons and property in Jackson Co. some years ago no doubt contributed to increase their number and give to their present strength, and every measure of violence and intolerance against them tends to make them more formidable.

This has ever been the effect of persecution. Their absurdities and wild religious notions cannot injure other citizens and under our laws they have the same right to enjoy their religious opinions as that other citizens possess. We repeat that if any Mormon violates the law let him be punished according to law, but there can be no necessity for making the whole tribe suffer for the misconduct of a few unruly members. If Rigden, Wright or Smith violate the laws let them legally, suffer for their own acts.

It is stated upon the authority of Mr. Johnson, a Missionary among the Indians, that the Great Council house erected by the Cherokees, about which much has been said was designed for the purpose of holding camp-meetings, and the object which the Indians had in view in calling a council of the different tribes was intended to concert measures for parcelling out the hunting grounds, and with no view to hostile operations against the white people on our frontier settlements, as was apprehended at one time. We are much pleased to learn thus much, and it is the more agreeable as coming from a gentleman on whose statements reliance can be placed. Notwithstanding all this we consider that Gen. Gaines was perfectly justifiable in taking the precautionary measure he did from the aspect presented at the time he received the information from Col. Mason; and we regret to find the Editor of Louisville Journal indulging in unmerited censure on the course Gen. Gaines pursued in the matter, while we cannot consider the General's conduct in any other light than patriotic and praiseworthy.—*Id.*

Lynching.—A barrel of whiskey was recently tarred and feathered, and then consumed by fire, at Valley Forge, Va. after a temperance address by the Rev. Mr. Huot. The leader of the work of destruction on this was a dealer in ardent spirits. We presume that punishment was inflicted in this case, not so much for mischief previously committed, as for the purpose of preventing its future perpetration.—*Mo. Rep.*

FRANCE.—The editor of the New York Herald writes from France as follows:

"One of the most striking features in the present condition of France is the extraordinary development of a taste for finance, railroads, trade, commerce, and every species of art and improvement. This taste is rising to a passion in the minds of la jeune France, and to Louis Philippe, and the men who made the revolution of 1830, is the nation indebted for it. It is a fact, that here all the leading classes of society are under the same influence which has pervaded the United States for some years past. Railroads are projecting in every quarter, and banks establishing at every commercial point. In an especial degree, the 'credit system,' as we call it in the United States, has just begun to be adopted in this country by government, merchants, and all classes.

"What a singular contrast presented by France to the United States! In the United States, the Government sets itself in opposition to improvements in commercial science, while in France the exact opposite policy is rapidly coming into play. Lafayette, the once celebrated banker, but overwhelmed a few years ago in the fluctuation of the last revolution, is beginning to reappear on the scene of action. He has established a large bank with branches, and others are preparing similar institutions."

Bennett, the editor of the New York Herald, writing from London, says:

In a short time it will become as fashionable among the English nobility to travel in the United States as it now is on the continent. The countess of Westmoreland, with a lovely niece, six servants, a travelling carriage and a medical attendant, embark to day in the packet ship President for New York.—She has engaged the whole of the lady's cabin for her own use. Her purpose is to travel for two or three years in the U. States. She has some property in Prince Edward's island, which she will also visit. She also visits Canada—the Falls of Niagara—and spends a winter in the South. I should not be surprised to see the Duke of Wellington, and half the English nobility, visit the United States in two or three years. We are on the eve of great changes.

OCEAN STEAM NAVIGATION.—The editor of the New York Star illustrates in a forcible manner, by the relation of the following anecdote, the intimate connection which ocean steam navigation is about to establish between Europe and America.—*Balt. Amer.*

A smart dapper little fellow, with a pattern book under his arm, called in at one of our large carpet warehouses: "I have come, sir, for some orders—here is my pattern book, should be happy to serve you." The proprietor after turning over the leaves, said to the agent, "Will you have the goodness to leave this book for a day or two, and I will send

it to your lodgings." "Bless you, sir, I have no particular lodgings; I arrived in the Great Western, took with me a valise and six clean shirts, only used three on the passage. I have run about from store to store until I have received orders for one thousand pieces of Brussels carpeting; you are the last person I have called upon. I am constantly on my feet—I dine when I am at leisure at any eating house that is high, and I pay for my lodging at night—so I have really no settled habitation. I must return in the Great Western to-morrow, as I shall have been absent from home when I get back full forty days—you are the last I have to call upon, and any orders you may please to give me, can be executed and sent to you complete in six weeks from this time per steam ship." Commentary is useless—this travelling agent in 24 days from the time he left home, received orders for \$100,000 of carpeting.

PROVIDENTIAL ESCAPE.—We last week alluded to the raging of fire in the woods in this vicinity. It continued to increase with fearful rapidity, and to approach with an alarming precision toward the village, from several different points, until last Saturday afternoon, when it was thought advisable to turn out and "fight fire." For several hours the towering flames appeared to sport with "poor weak human exertions" to stay its destructive course, and at several points "fired nature" had given way to it, expecting that before another sun, the little all which it possessed of this world's goods would be "laid low in the dust" of the devouring element.

The wind at dusk, increased to almost a hurricane, and increased the fire, which had already commenced burning in the immediate vicinity of the dwellings of Dr. Williams, Rev. T. Stillman; Mr. E. R. Thompson, and Mrs. Badington, in the southern part of the village, and Lieut. T. S. Brown, and Col. McDonald, on the more western limits, to such an extent that all human exertions were useless. It was at this crisis of affairs that an all-wise Providence interceded, and, to the great joy of all, clouded the heavens, and in an instant as it were, caused a torrent of rain to fall from them. Twenty minutes more, and the whole village would have been in a situation from which no human exertion could rescue it. The rain was the first for nearly four weeks. Although it was a heavy shower, yet so dry was the ground that the streams are not affected by it in the least.

Mr. Wise, the aeronaut, made a successful ascension on Monday. The balloon passed over the Schuylkill; by letting off the gas gradually at an extreme height, by means of a cord and pulley, he converted the balloon into a parachute and thus came down. It was a most fearful undertaking and was anticipated by competent scientific authority as calculated to end with it destruction of life.—*Phil. Gaz.*

FRANCE AND MEXICO.—The New Orleans Bee of Saturday contains the following letter from Vera Cruz, received on the preceding day by a Commercial House in New Orleans by the way of Havanna. It leaves no doubt that the end of the French and Mexican drama is at hand.—*Louis Jour.*

VERA CRUZ, 27th Aug.

We are unable to tell how the present crisis will end. Different rumors are constantly circulating respecting the state of affairs. We think, however, that the arrival of the expected reinforcements will soon resolve the question.—Preparations are making in this city. Parapets have been erected on the principal edifices and houses in the vicinity of the harbor. The troops which had been stationed on the route between Jalapa and Vera Cruz have been ordered to repair to this city. There are almost daily departures: nearly all the principal families have left the city and the middle classes are following their example. They are beginning to talk about sending us (the French) into the interior. The commandant, we are informed, has received orders to this effect, and will doubtless execute them at the first appearance of the new reinforcements.

Several more brigs of war have arrived. A frigate, the Astrea, from Martinique, returned thither some days ago.

The naval reinforcements are expected towards the end of September.

The administration and the congress ascribe to each other the fault of bringing on the present state of affairs. In the meantime, the newspapers continue their ungenerous articles against the French.

All the archives and the plate of the churches have been sent to Jalapa.

HOSTILITIES ON THE S. W. FRONTIER.—We have already mentioned, that a Mexican officer was recently killed in the northern part of Texas, and that instructions and a journal were found on him, from which it appeared that a plan was on foot for forming an organization of the Indians in Texas and on the U. S. frontier for attacking the Texian settlements on Red River and laying waste the whole country from Fort Gibson to Nacogdoches. Gen. Arbuckle, on receiving this information and learning that large parties of Delawares and Cherokees had crossed over, and with a body of Mexicans were ready for the attack, ordered two companies of dragoons to Fort Towson, to act as circumstances might require.

General A., in a letter to the Governor of Arkansas, dated Fort Gibson, Sep. 5, says: "Intelligence was received last night from Fort Jessop, which proves beyond a doubt that war has certainly commenced." A letter from a Mr. Green dated about the 21st of August, at Lima, 25 miles east of the Tamsse Washita, says, "we have direct information that Capt. Farmer and thirty of his men have been killed on the Sabine, by the Indians, within the last three days. Blindness, Lewis', and several other plantations, have been sacked, and their places surrounded, since Saturday, by hostile Indians. The road is completely lined with wagons for the lower prairies."

Gen. Arbuckle has communicated all the facts of the case to the Governor of Arkansas with orders to the commandant at Little Rock to furnish such ordinance as the Governor may require for the militia in the event of further hostilities.—*Louis Jour.*

We are informed, that as Gen. Atkinson and his family were recently returning to Jefferson Barracks from St. Louis, where they had been on a visit, the carriage in which they were riding was attacked by two ruffians, one of whom seized the reins of the horses whilst the other placed himself immediately in front to stop the carriage until the arrival of several accomplices who were close at hand. The driver, who fortunately had a pistol, shot the person who held the reins, and putting whip to his horses, succeeded in extricating the party from further peril.

It will be recollected that a few weeks ago, Judge Dougherty, one of the most respectable citizens of St. Louis, was murdered upon the same road, and no doubt the General and his family were preserved from a similar fate by the presence of mind of his carriage driver.—A number of the citizens of St. Louis visited the place of attack next morning, but were unable to trace the assassins. Considerable blood was discovered upon the spot, but the accomplices, to avoid detection, had carried away the body.

An Important Discovery.—The Teeth.—Waldie of Philadelphia notices a discovery of no little importance to such as are troubled with bad teeth. He says:

"Some time since, Doctor Caldwell, now a practising dentist at No. 68 South Sixth street, had a favorite horse which had become incapable of eating his oats, and on investigation a curious tooth indicated the difficulty to result probably from tooth-ache. Extraction was the remedy of course;—the poor horse was tripped up by tying his feet together as custom prescribes, his gum was lanced as we poor human nities have too often witnessed, and a pair of pinchers were applied, as we have also experienced; even a mallet and chisel failed of their effect. The tooth was intractable; no effect would withdraw it from its socket. The gum tunneled—and on examining it carefully, the doctor perceived a ligament at the neck of the tooth, and without much thing of the effect he cut it; the tooth immediately fell out, or was extricated with a slight effort of the thumb and finger.

"This led the operator to reflection, and the hint was obtained which confers upon suffering humanity a benefit, which may be esteemed by the sufferer second only to the discoveries of Jenner, or the circulation of the blood! Subsequent experiments have fully proved that the human teeth are also retained so powerfully in their sockets by a ligament, and it is the breaking of this which requires so much manual force; and this, when cut, which gives not so much pain as lancing the gums, loosens the tooth, and it may immediately be extracted without pain with the fingers! A physician of our acquaintance, whose name we are at liberty to mention if requested, has had the operation of extracting a large molar, treble fanged tooth in this way without pain, and so gratified was he by the fact, that he investigated the anatomy of the parts, and extracted all the teeth of a dead subject in the same way, and with no more difficulty than above related. He is a witness not to be unpoached, who, with many others, have already been benefited by this great anatomical discovery.

A Snake Bite.—The following extraordinary case of mortality arising from the bite of a Rattlesnake was related to us by the Rev Mr. Fitchell, who was an eye witness to all the particulars he related, which occurred after about one hour from the time of the occurrence. It took place during his last visit to the section where it occurred. He vouches for its correctness.

On Friday, July 6, 1838, about meridian, Mr. Jacob Heater, of Braxton county, Va., was bitten on the shinbone, mid way between the knee and instep, by a rattlesnake, within about one fifth of a mile from his house. The wound appeared so trifling at first, as scarcely to attract his attention, but in a moment or two he was apprised of his danger by the burning and smarting of the wound, and the very strange sensation felt through the whole system. He immediately started for his house, and was unable to proceed further than his porch, where he fell. He commenced vomiting blood violently, and a death like sickness was felt at heart. His whole system became agitated and convulsed. In this awful situation he continued with but little intermission until death came to his relief at about ten o'clock at night. He died in the arms of one of his neighbors, surrounded by an affectionate wife and 13 children.

Mr. Heater was a member of the

Baptist Church, a kind neighbor, a kind affectionate husband and parent. Truly, "in the midst of life we are in death."

We learn from the Natchez Courier that the U. S. Bank has purchased of the Commissioners of the State of Mississippi, the Union Bank Bonds of that State to the amount of five millions of dollars, which are to be paid for in the following manner: viz.

\$1,000,000 in New York or Philadelphia in cash down.

\$500,000 in Louisville, 60 days after 1st of November.

\$500,000 in New Orleans same date.

\$1,500,000 in Natchez, in Mississippi currency in December.

1,500,000 in New York or Philadelphia 60 days after the first of January.

In reference to this important transaction the Courier says:—*Balt. Amer.*

"Most sincerely do we congratulate the State of Mississippi upon this timely and advantageous negotiation. Nothing in the range of probability could have been done so signally beneficial to the citizens of our State, particularly those of the interior, as this arrangement. It will enable the Union Bank forthwith to commence discounting, which she will no doubt do, as we understand is the intention, at the rate of about a million and a half a month, until she will have loaned to our citizens about seven and a half millions. This will afford great relief to those who are compelled to pay money to the Marshal and Sheriffs at the full terms of the courts; and thus save immense amounts of property from sacrifice under the hammer—it will immediately revive our currency and resuscitate the depressed condition of all the monetary affairs of the State; whereas, if the negotiation had not been made with Mr. Biddle, it could not have been made on this side the Atlantic. And even if the commissioners had been successful in Europe, the relief would have come too late for all those who need assistance this fall.

A barrister blind of one eye, pleading with his spectacles on, said, "Gentlemen, in my arguments, I shall use nothing but what is necessary;" then, replied a wag, "take out one of the glasses of your spectacles."

JOHN JACOB ASTOR, of New York, is said to be worth the trifle of twenty-five millions of dollars—more than twice the sum left by Stephen Girard. This, at six per cent, would produce one million five hundred thousand dollars a year—one hundred and twenty-five thousand a month—four thousand one hundred and thirty-three dollars a day—one hundred and seventy-three dollars an hour—two dollars eighty seven and a half cents a minute—and nearly five cents a second! He will be rich by and bye.

A writer in the "Hesperian," a periodical publication of the West has a computation by which he satisfies himself and every body else for aught we know, that the valley lying between the great lakes, the Allegheny and Rocky Mountains and the Gulf of Mexico, will contain in two centuries, three times the present population of the world, and that the productiveness of the soil is capable of sustaining five times that population. A great many potatoes may certainly be grown within these limits, and many other eatables, but it is our present opinion that, after all, there would be rather scanty rations for forty five hundred millions of "rational beings" upon these premises; because if they were rational, eating would be a part of their business, and it is doubtful whether they could raise enough to live upon comfortably through a hard winter, without taking a few acres "on shares" somewhere out of the aforesaid valley.—*N. Y. Gazette.*

A JOKE FOR THE LADIES.—The editor of a paper in Providence lately informed his readers, that the ladies always pull off the left stocking last. This, as may be supposed, created some little stir among his fair readers and while they positively denied the statement, they at the same time declared that he had no business to know it, even if such was the fact, and pronounced him no gentleman. He proves it, however, by a short argument: "When one stocking is pulled off first, there is another left on; and pulling off this, is taking the left stocking off last."

GAZETTE. LEXINGTON, KY. THURSDAY, OCTOBER 18, 1838.

TRI-WEEKLY ARGUS.—We have received a paper bearing this title, published at New-Albany, Indiana. The paper is neatly printed, by C. W. HURD, at \$1 per annum in advance, and so far as we can judge by the one before us, is an interesting sheet.

We find in the Argus a "Business Directory." A similar one we would recommend to the business men of Lexington, and offer the Gazette as a medium. We should be thankful to all in business, to call, see the Directory, and, if approved, leave their names.

LOUISVILLE LITERARY REGISTER.—We believe there is no city in the Union, of the same population, having the same number of papers issued, and we presume so well patronized, as Louisville, Ky. We have received the 13th number of a paper bearing the above title, published by J. ELLIOT & Co. It is an uncommonly neatly executed sheet, of a mammoth size, and well filled with original and selected literary articles.

KENTUCKY DEMOCRAT, is the title of a new paper, published at Frankfort, the first number of which we have received, edited by E. W. COLEMAN, published by C. STONE & Co. It is an advocate for Democratic principles, but to be efficient, we should think it would be not to be much of an Ishmael—Yet we hope its editor and publisher may meet with all the patronage they desire, and that it may prove an efficient lever in the cause it advocates.

From the Mayville Monitor Extra, Oct. 16, IMPORTANT REVOLUTION IN OHIO. SHANNON ELECTED!!

Aware of the general anxiety prevailing to see the returns from Ohio, we hasten to lay before our readers such as have been received at this office. Never have we known such a triumphant and overwhelming revolution, as that, the result of which is given below. "The people of the Buckeye state have most nobly vindicated its honor. Shannon's majority cannot be less than 5000 votes, and may exceed it, and this too, when his vociferous opponents confidently anticipated the like majority on the other side. Our gain in the Congressional delegation is like signal and transcendent—out of 14 districts heard from, 11 have returned Democratic members. In the last Congress there were 8 Democrats to 11 Whigs. A majority in the legislature also is composed of Democrats. Was ever victory so complete!

VANCE'S majority in 1835, 6,046

From the Observer and Reporter, a good Whig paper of our city, of yesterday, we copy the following:

"OHIO ELECTIONS.—We have not received as yet complete returns of the elections which took place in Ohio on Tuesday of last week. Sufficient, however, is known to render it certain that the Whigs have been badly beaten.—From the best information we have been enabled to obtain, we have lost the Governor, a majority of the Congressional representation, and of the Legislature.

A slip from the office of the Columbus, (Ohio) Statesman, a Van Buren paper, dated on Friday last, states that as far as heard from, Shannon's (the Van Buren candidate for Governor) gain is upwards of 7000, and that his majority will be upwards of 5000. The same paper gives the names of the following members of Congress as having been ascertained to be elected:

- 1st dis. ALEXANDER DUNCAN, [V. B.]
- 2d " JOHN B. WELMER, [V. B.]
- 4th " THOMAS CORWIN, [W.]
- 5th " WM. DIXON, [V. B.]
- 8th " JOSEPH RIDGEWAY, [V. B.]
- 9th " WM. MEDILL, [V. B.]
- 10th " SAMSON MASON, [W.]
- 11th " ISAAC PARRIS, [V. B.] gain.
- 12th " JONATHAN TAYLOR, [V. B.] gain
- 13th " D. P. LEADREITER, [V. B.]
- 14th " GEO. SWENNY, [V. B.]
- 17th " JOHN HASTINGS, [V. B.] gain.
- 18th " D. A. STARKWEATHER, [V. B.]
- 19th " H. SWEARINGEN, [V. B.] gain.

In the last Legislature, the Whigs had majority of 12 on joint ballot, 4 in the Senate and 8 in the House. The Statesman says that there are already changes enough to reverse this majority.

The Cincinnati Gazette, of Saturday, likewise remarks,—"The accounts we receive are all squally. We advise our friends to prepare for a result to this effect."

"Four Whig members of Congress out of nineteen!! Governor and both branches of the Legislature become."

In the Chillicothe district Mr. Bond has been re-elected by a majority of nearly 200. This is a great triumph, when it is remembered that as violent exertions were made to procure his defeat as were ever made in an election."

The Ohio Statesman Extra, of the 15th, furnishes the following additions of members of Congress elected in that State.

- 5th District, Wm. DOAN, Dem.
- 7th " Wm K. BOND, Fed.
- 15th " JOHN W. ALLEN, Fed.
- 16th " J. R. GIDDINGS, Fed.

GEORGIA.—From the several accounts we have received from this State, we should infer, that the State Rights party has succeeded over the Union party. The loco-poco press has, in many instances, identified the Union party as the Van Buren party; but we have every reason to believe, that both parties are opposed to a Bank of the United States, and in favor of an independent treasury; wherefore, it is of but minor importance to the Democrats, which party has succeeded. We fight for principles, not for men.

MARYLAND.—Garrison, the Democratic candidate for Governor, is elected by a majority of 241 votes over Steele, his Whig competitor. The Whigs claim a majority in each branch of the Legislature, whilst the Baltimore Republican asserts, that if the Democrats have not a majority there will be a tie.

CONNECTICUT.—We are not gormandisers—and consequently not disposed to swallow Connecticut as one lover did the other's nose, which he had bitten off, upon compulsion, without pepper, salt, or mustard. But if our sister Connecticut has seen the humbuggery which has been employed to retain her in the Whig ranks, and is voluntarily coming over we will most cordially tender her the right hand of fellowship, and say "glory enough for one day!"

NEW JERSEY.—The Baltimore Patriot claims this State as having gone decidedly for the Whigs. It may be so—we have heard none out of the State pretend to claim it for the Democrats. In fact, had there been nothing left for the loco-poco's, even the sober Gazette might have been induced to have joined the cry of "GREAT AND GLORIOUS VICTORY!!"

PENNSYLVANIA.—The Baltimore Patriot gives very full returns from this state. Gen. PORTER, the Democratic candidate for Governor, is recently elected by 5000. The city of Philadelphia gave a majority for RITSEN, of upwards of 4000. The county of Berks on the other side, gave Porter over 3800. In addition to the returns of the Patriot, we have seen the Pittsburgh papers, which show a considerable increase for the Democratic party in Western Pennsylvania, except the county of Allegheny. In our next we shall be able to give the precise margin for Porter. This election has been exceedingly animated, and well contested on each side.

From the Observer and Reporter.

At a meeting of the house keepers and others, of the Northwestern part of Fayette county, at the house of Dan. Ford, near Delphion, on the 9th October, 1838, called together for the purpose of taking measures the more effectually to suppress a spirit of insubordination which has been manifested to some extent of late, in this section of the county among the slaves; on motion, R. QUARLES was appointed President of the meeting, and W. Z. Thompson, Secretary.

A committee, consisting of Richard Spurr, Samuel S. Patterson, John L. McDowell, Reuben Houghton and Will. Z. Thompson, was appointed to prepare resolutions expressive of the sense of this meeting—who, after retiring a few minutes submitted the following preamble and resolutions, which were unanimously adopted, viz:

WHEREAS, an incendiary spirit has manifested itself amongst the negroes of this part of the county, which we believe have been caused by the late appointment of a patrol, since which time some of our citizens had some of their property burnt; and whereas, such a state of things tends much to destroy the peace and safety of this community:—

Therefore,

1st. Resolved, That we will use our

best exertions to detect and bring to punishment, all persons who have heretofore or may hereafter be guilty, either as principal or accessory, in such outrages.

2d. Resolved, That we approve the course pursued by our patrol heretofore, and that we will aid them to suppress the unlawful conduct of our negroes; and we say to them "go ahead."

3d. Resolved, That we shall consider all white persons, who may hereafter oppose the lawful acts of our patrol, as enemies in the peace and welfare of our community, and deserving the contempt of every good citizen.

4th Resolved, That we will, to the best of our ability, assist the patrol in the discharge of their duty.

5th. Resolved, That the proceedings of this meeting be signed by the President and published in each of the Lexington papers.

R. QUARLES, Presd.
Wm. Z. THOMPSON, Secy.

SURGICAL OPERATIONS.

Professor Dudley performed the operation of cutting for stone, or gravel in the bladder on a boy ten years old, on Saturday last, making the thirteenth case from the same county in Kentucky; and his ONE HUNDRED AND FIFTY SEVENTH operation of Lithotomy. The patient is doing very well and will be cured in the usual time. The operating room was crowded with students, who have visited Lexington from a number of States, for the advantages of the Transylvania Medical School. On Monday he made the operation for cataract, on an old gentleman from Tennessee, of the most favorable prospects of a speedy restoration of sight. The number of patients, who have resorted to Lexington this summer, to avail themselves of the skill of the Professor of Surgery in our School, has been unusually great, and the success of his practice still goes on undisturbed, and as if conducted by a charm.

Many stories we see are afloat regarding the unhappy duel which took place at Bayou St. Louis on Monday morning. Our object in naming the matter is not to enter minutely into the subject, but to correct some of the many errors that have crept into the press upon this subject. The parties quarreled on Saturday and were bound over to keep the peace within the state of Louisiana. This was the reason for the journey to the Bay, that place being in Mississippi. They fought with brand, and not small swords there was but one blow given by each party: the thrust of one took effect in the lower part of his adversary's abdomen, close upon the groin: the blow of the other fell while distended on the lunge, making a most severe cut through the right shoulder, and slightly wounding the head. We rejoice to learn that the wound of the former, Mr. C., has not proved fatal; how his adversary fares, we have not heard.

Lexington, August 3, 1838.—32-6t.

To the Widows and Heirs of Officers and Soldiers of the Revolutionary and Late Wars.

I WILL attend to obtaining Bounty Land for the heirs of Officers of the Revolutionary and soldiers of the late War, and pensions for widows of officers and soldiers of the revolution. All widows who were the wives of officers or soldiers any time prior to the first of January, 1794, are now entitled to the same pension as their husbands would be entitled if they were alive. All officers, soldiers, or other persons, who furnished property or land destroyed for the use of the military during the late war, are entitled to pay for the same. From documents now in my possession, I will, in many cases, be able to establish the claims. No charge will be made in any case, unless successful.

VALUABLE CITY PROPERTY.

I WISH to sell the House and Lot whereon I now reside, at the corner of High and Main cross street, also the saddler's shop on Main cross street, and the House and Lot opposite the residence of John Peck, on which is a pump of never failing water. It is deemed unnecessary to be particular in the description of those who may wish to purchase, would of course desire to examine for themselves. The property is unencumbered, and a perfect title will be made the purchaser. For terms apply to FRANCIS KRICKEL.

All indebted to me are requested to come forward and pay their accounts, and those who may have claims upon me, are desired to call and receive their dues as I am about to remove from the state. FRANCIS KRICKEL. Lexington, Oct. 11, 1838. 41-1t

CHARLES QUINN respectfully informs the citizens, that he will be happy to instruct persons disposed to make acquisitions in this elegant accomplishment. Specimens of the most elegant and fashionable hands can be exhibited—and let those interested judge for themselves. The following letter of recommendation from the Vice-President of the United States, may serve to remove any doubts with those who are sceptical on this subject:

"I have information satisfactory to myself, that Mr. CHARLES QUINN, who teaches Writing, is well qualified to perform that useful branch of Education to advantage, and as such is my opinion. I feel it my duty to recommend him to the public as a man worthy of confidence, and the patronage of the public in his peculiar qualifications in his art—and I also refer persons to his exhibitions of his performances, which he carries with him.

At Little Rock, passengers by this line, take the splendid Troy built coaches every other morning, precisely at 9 o'clock, to Rockport, thence by the splendid U. S. mail packet to Bolivia. Through in 24 hours.

This line forms the connection between the great U. S. mail line by steamboats on the Mississippi river, and the numerous U. S. mail lines by coaches, (recently established by the Department,) diverging from Little Rock, north, south, and west. It also connects with the Louisville and New Orleans mail line at Bolivia, a flourishing town on the Mississippi, opposite the mouth of White river, the proprietors of which have erected a splendid hotel, where passengers can at all times be accommodated with the choicest luxuries of the Mississippi Valley.

Rockport, the place which stages and steamboats meet on the above line, is a beautiful place on the west bank of the White river, the proprietors of which are making great improvements for the accommodation of the public. In short, no pains or expense will be spared to render every thing comfortable and convenient throughout this line. All baggage at the owners' risk.

SEGUIE'S ACOUSTIC DROPS,
 AN INFALLIBLE REMEDY FOR DEAFNESS.

DR. JOSEPH SEGUIE, the Inventor and Proprietor of these Drops, does not feel called upon, at this time, after the experience of twenty years in the application of his remedy, in many thousands of cases in partial or total deafness, most of which have been successful, to enter into an analysis of its qualities, or a detail of its virtues. It is sufficient to observe, that ninety-nine cases in a hundred, of partial or total deafness, arise originally from cold; and this medicine being intended to act particularly in such cases, has been a successful medium of cure just in that proportion. There are many cases of deafness, which are believed by the sufferers to arise from other causes, such as excessive and sudden noise, long service in factories, the firing of cannon, &c., and of many such we have certificates of cure. But Dr. S. does not hesitate to assert, that a large majority of such instances of deafness arise from cold, either as a direct or predisposing cause. In all such cases, either recent or of long standing, whether in the young or aged, this medicine will exert a happy influence, and the great relief may be depended on. Many instances of cure are known to the proprietor, after every other proposed remedy had been tried, and when all hope of recovery had been exhausted. Being composed entirely of vegetables of the most innocent description, and warranted to contain no mineral whatever, no fear need be entertained for a moment, that any ill effects will result from their use. The following directions, strictly attended to, will ensure to the sufferer almost instantaneous relief.

DIRECTIONS.

First ascertain if there be any wax in the ear which has become hard; and if so, use an injection of soap and warm water; or, if necessary, a preparation of oil orange and hartshorn, which any apothecary can furnish, so diluted as to be used with safety. This should be done an hour before using the Acoustic Drops; then apply these, by dropping 5 to 10 drops into the ear, and stop the ear with a little cotton wool. Repeat this night and morning. The soap and water should be occasionally used in the meantime, at least half an hour before using the drops.

TESTIMONIALS.

London, August 27, 1830.

This is to certify, that I have known Dr. J. Seguin intimately for some years. His character, as a man of honor and strict integrity, is unquestionable; and I can bear witness to the great efficacy attributed to his Acoustic Drops by those who have used them. I do not believe he would offer to the public any medical preparation on which the most perfect reliance could not be placed.

WM. BECKWITH, JR.
 Prefect of Westminster Abbey.

London, June, 1832.

Dr. Joseph Seguin having imparted to me the secret of his composition known as the Acoustic Drops, we take pleasure in pronouncing it, not only perfectly innocent in its effects, but highly efficacious as a remedy for deafness arising from cold.

To Dr. S. Seguin.

Dear Sir,—I take pleasure in informing you of the complete success of your Acoustic Drops, in effecting a cure of the deafness under which I have labored for the last eight years. I believe the deprivation of my hearing was caused by cold taken after an attack of fever, which I use in a condition in which you saw me some two months since. I have now completely regained my hearing after using three bottles. I am with gratitude, your obedient servant,

JOSEPH WILSON.
 London, March 12, 1836. No. 10, Blackfriars.

Wade Park, Somerset, May, 7, 1836.

Dr. J. Seguin.—Your Acoustic Drops have effected wonders on my son. Having, during the past winter, fallen into the neighboring lake while skating, the cold produced a partial deafness in one ear, and almost total in the other. We have applied but two bottles, and find him so much benefited, that I am induced to send for a dozen, in order to distribute among some of my tenants, as well as to continue their use in my son's case. Please deliver them to the bearer, John Simmonson, who is provided with money to pay for them.

With great respect,
MANCHESTER, June 10, 1836.

I have used Dr. Seguin's Acoustic Drops in my practice with great success. I consider it more universally successful than any medicine for the cure of deafness that ever came under my observation. I know nothing of its composition.

[TRANSLATION.]

Libon, January, 1817.

Dr. Joseph Seguin submitted to me his medicine for the cure of deafness, and proved to me that it is a good preparation for the purpose. Dr. Seguin's private character is such as must entitle him to the greatest respect and confidence wherever he is known.

NOTICES OF CURE.

Mrs. SARAH BARNCASTLE, of Shington, afflicted with deafness, and to have been caused by the discharge of a gun near her ear, was permanently cured by the use of one bottle.

George HEARSTON, of Paddington, was early subject to a discharge from one ear, which resulted in total deafness on that side. The use of two bottles has restored his hearing, so that no inconvenience results. He continues its use.

Richard THOMPSON, of St. Martin's Lane, became gradually so deaf as to be unable to hear a full orchestra in their loudest performance. He was relieved by one bottle so as to be able to hear indistinctly, and was permanently cured by three bottles.

JAMES HENRY WILLIAMSON, of Richmond, became deaf after a severe attack of inflammation in the head, and was cured by the use of two bottles.

Miss LOUISA VINCENTS, of Turnham Green, aged 17, was suddenly attacked with deafness arising from severe cold. She was cured by the use of two bottles.

—The names of hundreds of others might be given, were it of any use except to swell a list already large enough. The best proof is in the use of it, which is recommended to all afflicted.

CAUTION.

In purchasing Seguin's Acoustic Drops, observe that every bottle of the genuine is accompanied by a lithographed copy of the following certificate, with Dr. Seguin's fac simile signature.

To the citizens of the United States of America and Canada:

London, January 6, 1837.

This is to certify, that I have applied Dr. Robert D. Hart, of the city of New York, my agent for the sale of Seguin's Acoustic Drops, with the power to appoint agents throughout the United States and Canada. He is also authorized to furnish to the poor gratis, at his discretion, provided the person applying shall produce a certificate from the nearest magistrate, or minister of any church, that the applicant is a person of cool character, and not poor to purchase a bottle.

Signed,

J. SEGUIE, M. D.

In order more perfectly to guard against counterfeits, Dr. Seguin has prepared a large quantity expressly for America and Canada, with an entirely new labels, wrappers, &c. See that the agent's name is on the outside wrapper of each bottle.

Price \$1.50 per bottle.

Baltimore County, May 8, 1837.

Mr. Robert D. Hart.—When in New York, some three weeks since, I bought of you a bottle of Seguin's Acoustic Drops for the cure of Deafness, telling you at the time that if I found any benefit from its use I would inform you, and if otherwise, I would publish it in the Baltimore papers as an imposture. I have found so much benefit from them, that I am induced to send for six bottles, which please send to care of J. Taylor & Sons, where I will get them. My case is of ten years' standing, and I have endured much from a rumbling in my ear, which is nearly removed.

I subscribe myself, with pleasure,
 Your friend,

Prentiss's Pile Ointment.

This invaluable preparation has cured thousands; and even in those deplorable cases of long standing, judged by the Faculty to be incurable, a single bottle will afford the most surprising benefit, and yield the patient a degree of comfort to which he has been a stranger. No family ought to be without this remedy, for it will effect a radical and speedy cure in all cases, if resorted to in the commencement of the disease.

Said by D. BRADFORD, at the Office of the Kentucky Gazette, Lexington, K.

Female Cordial of Health.

THIS invaluable preparation is a medicine to the stomach, and eminently tonic in its effects. But its highest and best quality is in its specific and curative effects on female weaknesses.

Very many of the wives and mothers among us are condemned to untold sufferings, by diseases arising from local and general debility; and because they find no relief from the strengthening remedies in common use, they are too often given up by the Faculty as incurable. Weaknesses, as well as the pains in the back and limbs, with which such females are afflicted, will all yield to the sovereign and inimitable effects of this **CORDIAL OF HEALTH**.

For the weaknesses consequent upon the obstructions and irregularities to which unmarried and young females are subject, there can be no remedy in the whole Materia Medica, which combines such innocent and curative virtues.

Prepared by Edward Prentiss sole proprietor and sold by Daniel Bradford, at the Office of the Kentucky Gazette, Lexington.
